

Receptacles and Liners

RECEPTACLE LINER CHART

GAUGE AND THICKNESS INFORMATION

Gauge is a term used to describe thickness. Linear Low-Density Can Liners (LLD) are measured by mil thickness; High-Density Can Liners (HD) are measured by micron thickness.

Mil (one thousandth of an inch)-One mil equals 0.001. Can liners range between .35-4.0 mils.

Micron-25.4 microns equals 0.001. 1,000 microns (M) is 1mm. Can liners range between 5 to 24 microns.

GAUGE EQUIVALENTS

Static Load (lifting strength) is the best way to choose bag strength. Below are the approximate gauge equivalents for static load:

Strength Grades	Linear Low Density Mil Gauge	High-Density Micron Gauge
Light	.35 - .44	5 - 9
Medium	.45 - .57	10 - 12
Heavy	.58 - .69	13 - 14
Extra-Heavy	.70 - .89	15 - 17
XX-Heavy	.90 - 1.14	-----
Super	1.15 - 1.39	-----
Super Heavy	1.4 & up	18 - 24

Metal Receptacles

Designed for indoor and outdoor use, these products withstand hard and constant use and endure the harshest weather conditions. All are shipped fully assembled and ready for use. Aspen Series receptacles are constructed of heavy gauge, hot dipped galvanized, fire safe steel. Ultra violet stabilized to resist fading. All stone panels reinforced by steel sides of receptacle. Stone panels have a Class A fire rating. Vandal resistant designs. ADA Compliant.

12-201-02-6 12 GALLON GALVANIZED RECEPTACLE, BROWN Each
Liner Size: 30" x 36"

Receptacles and Liners

Metal Receptacles

Dimensions: 19Sq. x 38H Weight: RB model -35.5 lbs., PL models - 43.5 lbs. Capacity: RB model-40 gal., PL - 29 gal. Made of 30% recycled steel and is 100% post consumer recyclable. Comply with OSHA Requirements. Full length piano hinge joins top to base - steel guide rods hold top at 90 degree angle allowing for easy servicing of unit. Folding steel retainer bands hold poly bags securely out of sight. Also available with a Germ-Fighter rigid plastic liner to control germs and odors. Stainless steel legs with plastic buttons protect floors. Two disposal openings are protected by stainless steel push doors.

12-940-02-7 METAL RECEPTACLE Each

Rolled top edging for easy handling, continuously welded to mesh along entire perimeter. Six equally spaced vertical ribs welded to mesh at every point of contact for added strength. Single sheet expanded metal body will not unravel. Small diamond patterns present a modern appearance and prevent escape of small pieces of refuse. One piece dished bottom perforated to provide drainage of rain and melting snow. Sides are constructed of 16 gauge steel, base is constructed of 18 gauge steel. Uni-Koat Powder Coated.

12-952-02-9 45 GALLON STEEL POWDER COAT, GREEN Each
Liner Size: 40" x 46"

Plastic Receptacles Funnel Top Receptacles

45 gallon trash can. Ideal for Downtown and Business Districts. Large capacities are ideal for high volume areas and require less frequent servicing. More economical than traditional decorative litter containers. Attractive, upscale granite colors look like natural stone and won't fade or scratch off. Permanently attached lids ensure that lids won't get lost or stolen. Base can be weighted to deter theft and increase container stability. Dimension: 27.25" x 27.25" x 34.75". Color: Sandstone.
